● FPIs TURN NET SELLERS

Sensex slides 460 points; plunges 2.6% in April

YOUSEF KP
Mumbai, April 29

AFTER TRADING WITHIN a 500-point range for the entire week, the Sensex ended in the red on Friday. The index has fallen 2.6% in April. The benchmark indices tumbled in the last hour of the trade on Friday, with Reliance Industries and Axis Bank primarily contributing to the fall. The overall sentiment remained weak over raging inflation and policy tightening signals from the Federal Reserve.

After Thursday's purchase, foreign portfolio investors (FPIs) turned net sellers on Friday, having sold shares worth \$477.3 million. In contrast, local investors purchased equities worth \$456.6 million, provisional data on the bourses showed. Barring four sessions in April, FPIs were net sellers in each day of the month with the monthly sales tally hitting \$3.86 billion.

While the Sensex slid

460.19 points or 0.80% to settle at 57,060.87 points, the Nifty50 gave up 142.50 points or 0.83% to end the session at 17,102.55. "Markets are witnessing volatile swing weighed by concerns over multi-decade-high inflation rates, potential aggressive interest rate hike by the US Fed and slowing global growth along with prolonged Russia-Ukraine war," said Siddhartha Khemka, head — retail research, Motilal Oswal Financial Services. Despite sharp selling pressure in the last hour, the Nifty held on to

its key psychological level of 17,000 mark. Going ahead, volatility is likely to continue as the focus will shift to central bank policy meetings both in the US and the UK, Khemka said.

Axis Bank, which reported a lower-than-expected operating profit for the March quarter, slid the most on the Sensex and Nifty. Its shares plunged 6.6% on Friday to hit one-month low of ₹728.70 on the BSE. "Despite a gradual shift in its incremental loan mix towards higher-yielding loans, we do not yet see evidence of

Axis Bank's ability to exercise better pricing power, which remains a key driver for RoA reflation. We trim our FY22/FY23E earnings estimates by 4-5% each to factor in higher cost-to-assets," observed analysts at HDFC Securities Institutional Research.

However, global markets were trading in the green supported by positive economic data from Germany and the euro zone. However, restrictions in Beijing and Russia's confirmation to strike Kyiv during the UN visit capped the upside. Barring India, all the major indices in Asia ended the day in the green with Hang Seng and Shanghai Composite surging 4% and 2.4% respectively. European markets were trading about 1% higher.

All sectoral indices compiled by the BSE closed lower on Friday with BSE oil & gas, power falling 2.6% and 1.9%, respectively.

IndusInd net zooms 51% as income rises, provisions falls

FE BUREAU
Mumbai, April 29

INDUSIND BANK'S CONSOLIDATED net profit for the January-March quarter rose 51% year-on-year (y-o-y) to ₹1,401 crore on the back of higher income and lower provisions. The net interest income (NII) grew 12.7% y-o-y to ₹3,985 crore, other income was up 7% to ₹1,905 crore and the net interest margin (NIM) rose 10 basis points (bps) sequentially to 4.2%. Provisions were down 22% y-o-y to ₹1,463.52 crore.

Sumant Kathpalia, managing director and CEO, said all retail products saw the highest levels of disbursements ever for the bank during the quarter. Corporate loans also maintained a steady momentum, led by small companies. "Strong retail disbursements and falling costs of deposits helped improve our net interest margin to 4.2% from 4.1%. Overall, our profit margins remain healthy at 5.8% for the quarter," Kathpalia said.

The advances book grew 12% on a y-o-y basis to ₹2.39 trillion and deposits rose 15% y-o-y to ₹2.93 trillion. Current account savings account (CASA) deposits comprised 43% of total deposits at the end of Q4,

up from 42% a year ago.

Restructured advances constituted 2.6% of the loan book, down from 3.3% in Q3 FY22. "On the asset quality and provisioning front, our stressed pool has seen meaningful reduction across categories such as net slippages, recast book and overdue in microfinance," Kathpalia said, adding that the bank has, nevertheless, maintained continuing provisions at ₹3,328 crore, taking a conservative

approach.

Slippages were at ₹2,088 crore in Q4, down from ₹2,598 crore in the previous quarter. The bank made recoveries worth ₹716 crore and upgrades worth ₹281 crore during Q4. Gross non-performing assets (NPA) stood at 2.27% of advances as on March 31, 2022, down from 2.48% as on December 31, 2021. The net NPA ratio stood at 0.64%, down from 0.71% a quarter ago.

Rupee gains 11 paise to close at 76.50

THE RUPEE APPRECIATED by 11 paise to close at 76.50 against the US dollar on Friday as the greenback retreated from its 20-year high. Expectations of foreign fund inflows in LIC IPO which will open next week, and possible central bank's intervention also supported the rupee sentiment.

HDFC Securities research

analyst Dilip Parmar said the rupee appreciated on the expectation of better inflows, a retreat in the dollar index and a rebound in risk assets. "Market participants are expecting good inflows in LIC IPO after the recent oversubscription of Campus Activewear," Parmar

said. "Dollar index is due for some consolidation, given the indicators are registering some overbought readings. Bidders are waiting for a dip and positioning for a rally on the back of hawkish Fed and policy divergence with other developed nations," he noted. —PTI
